

Comparable< Event >

```
graph BT; core.Event[core.Event] --> Comparable[Comparable< Event >];
```

A UML class diagram illustrating inheritance. A gray box labeled 'core.Event' is at the bottom, and a white box labeled 'Comparable< Event >' is at the top. A blue arrow points from the 'core.Event' box up to the 'Comparable< Event >' box, indicating that 'core.Event' inherits from 'Comparable< Event >'.

core.Event
